MEETING PROGRAMME

Fălticeni, 4th of – 8th of April 2022

ROMANIA

The transnational mobility in Romania will create the opportunity for students and teachers to understand different cultures and to become more tolerant in respect of various nationalities. The North of Romania is a region called Bucovina where more nationalities live: Polish, Ukrainian, Jewish, Russian with specific language, tradition, music, who work the land and respect the nature. All activities during the meeting in Romania (common lessons in school, workshops, discussions with other Romanian students and teachers, discover the representative elements of their culture and traditions, folklore, study of environment in natural and urban area) will give the participants a chance to broaden horizons using the results to open the minds for the knowledge of ecology, preserving the environment, sustainability. At the same time it will improve their foreign language and ICT skills, the collaborative social relationships between teachers and students, student-student based on trust, mutual respect, respect for their own and others' work, the spirit of initiative, the ability to work together.

The general topic will be ENVIRONMENT.

The students will develop some activities:

analyze and compare urban and natural environment,

will discuss the measures necessary to keep clean the nature, to recycle waste materials, to prepare for sustainable employment,

will participate at workshop in our school, will work at our common dictionary.

Exchange of information, attitudes, experiences in the project will foster students' love and respect for both local and European problems, issues and goals. The project results or outcomes (mini dictionaries, photo albums and videos, will be uploaded and published in eTwinning platform and will be used in lessons.
